

Colloquium Anthropological Crossroads in the Neighborhood

Meeting Point & Date

Claramatte park, Pavillon, 4057 Basel

20 May 2026, 16:15 – ca. 17:30

This session brings together the individual research projects developed over two semesters in the course *Neighbors*, as part of the Colloquium Anthropological Crossroads. For this occasion, the Colloquium moves into the public space: the Claramatte park becomes a site of encounter, exchange, and reflection, where the projects can be engaged in relation to their specific contexts.

The session takes place outdoors in all weather conditions. Please come prepared with weather-appropriate clothing (e.g. rain jacket, umbrella) to ensure comfort.

In case of rain, we will continue under the pavillon and with umbrellas, embracing the conditions as part of the experience.

We look forward to exploring and discussing the projects together.
